Eclipse Project
Eclipse Foundation

June 2011

By 2012, 80 per cent of all commercial software will include elements of open-source technology. Many open-source technologies are mature, stable and well supported.

They provide significant opportunities for vendors and users to lower their total cost of ownership and increase returns on investment.

Gartner Group, 2008

Eclipse

- Technology Platform
- Eco-System

History

- 2001 - Eclipse Project
- 2004 - Rich Client Platform, Eclipse Foundation
- 2006 - Callisto Release Train
- 2008 - Top Level Runtime Project
- 2009 - Industry Working Groups
