

04. Lean Innovation Management Center (LINC)

Prof. Dr. Uwe Aßmann
Softwaretechnologie
Fakultät Informatik
Technische Universität Dresden
2019-0.1 10/3/19
http://st.inf.tu-dresden.de/teaching/saab

- 1) What is "Lean Innovation"?
- 2) LINC
- 3) Innovations with Cube-Its

Lean Innovation Management Center

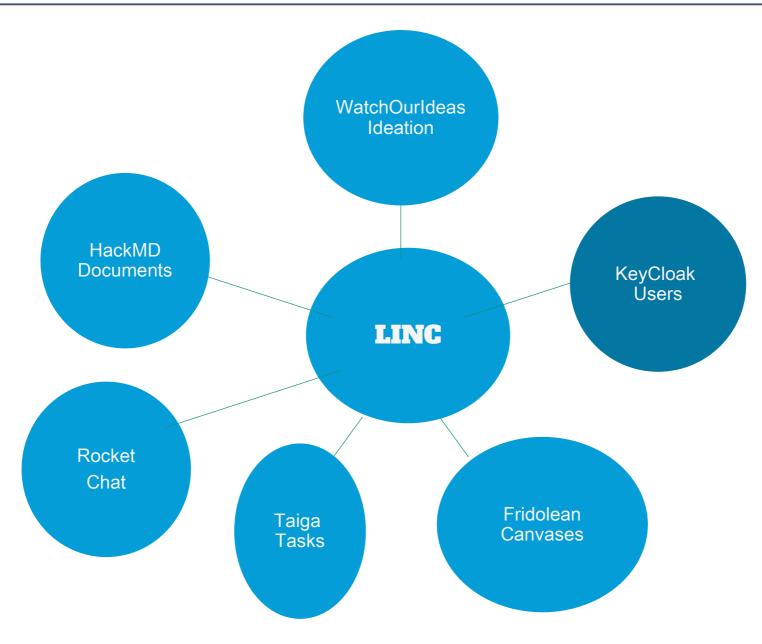

- Public instance available at http://linc.inf.tu-dresden.de
- Course instance available at http://linc.saab18.inf.tu-dresden.de
- Made in the ECSEL IoSense project www.iosense.eu
- Innovation Process CLIP for in-house products, but based on Lean Startup
 - Template-based ad-hoc workflows
 - Synchronization of data

LINC Structure

3 Software as a Business

Hypothesis Testing in "Lean Startup" Process

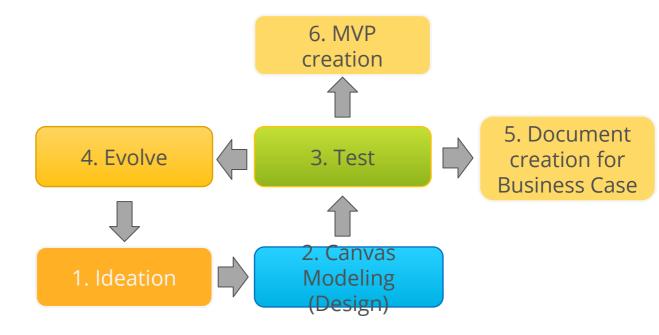

4 Software as a Business

Lean Startup Cycle: **IDEAS** Task 1.0 **BUILD** LEARN Task Split Tests Rapid Prototypin **Customer Interviews** 2.1 **Demonstrators Customer Development** Usability Tes DATA **RESULT** stomer Archetypes Task Continuous Integrati Software as a Business, ◎ Pr Isifiable Hypotheses Incremental Deployment Just-in-time scalability **MEASURE** Quantifiable measurement Clear Product Owner Standardized process Real-Time Monitoring **Definition of Hypotheses Usability Tests Acceptance Tests** Real-Time Monitoring

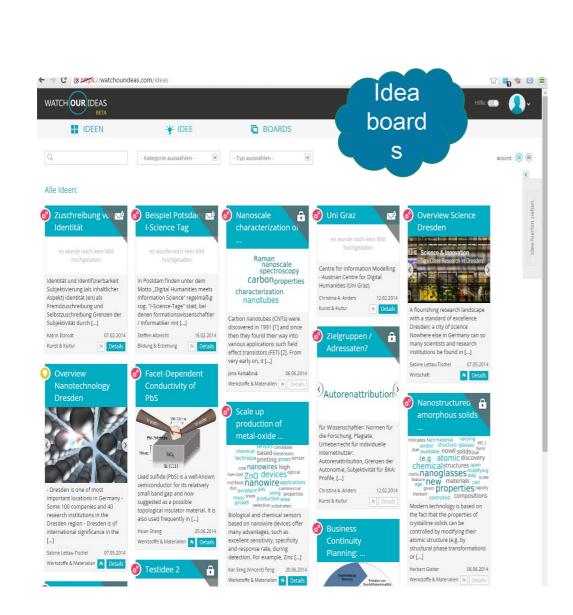

CLIP is "Lean Startup" for Co-Innovations with Customers

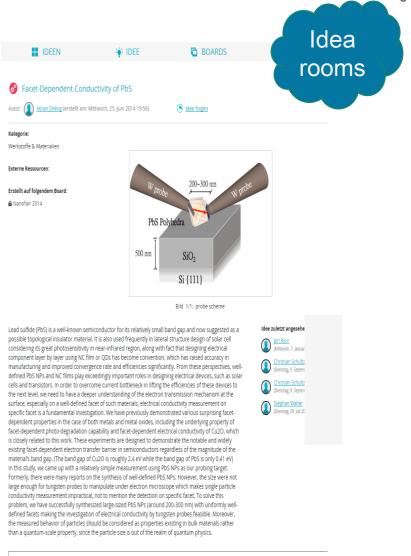

- CLIP Phases (Customer-centric Lean Innovation Process)
 - 1. Ideation with Watch Our Ideas Idea management platform
 - 2. Canvas modeling with Fridolean platform
 - 3. Hypothesis testing With stakeholders on RocketChat
 - 4. Evolve: Iteration / Refine
 - 5. Document creation
 - 6. MVP creation

Ideation with LINC Component WatchOurldeas – Web Idea Management Platform

WatchOurldeas - Web Idea Management Platform

- Platform for communicating developing, sharing and combining ideas
 - Developed by TU Dresden, can be used within the course
 - Otherwise licensing required from TU Dresden
- Sharing ideas in idea rooms grouped by idea boards
 - Public, group-private, or private
- Gathering feedback, suggestions and improvement for ideas
 - Remote customer interviews
- Create canvases for developing ideas to business
 - Going over to Fridolean, the Canvas management tool

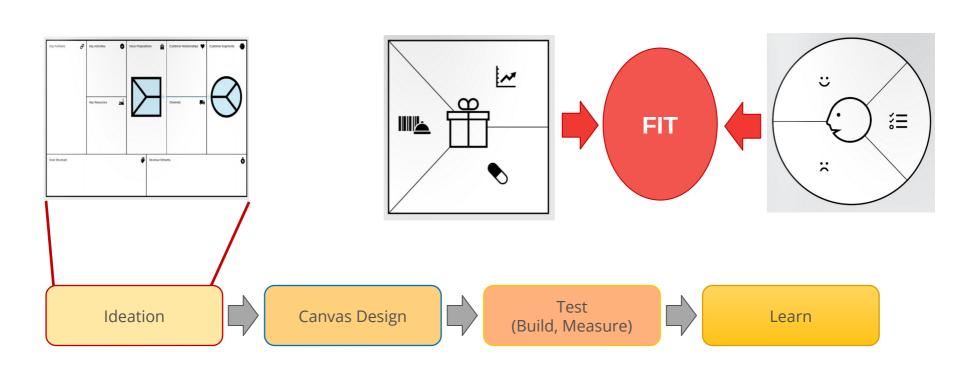

Canvas Modeling with LINC (component "Fridolean")

8 Software as a Business

https://blog.strategyzer.com/posts/2014/9/29/value-proposition-design

Osterwalder, Pigneur; Value Proposition Design, 2014

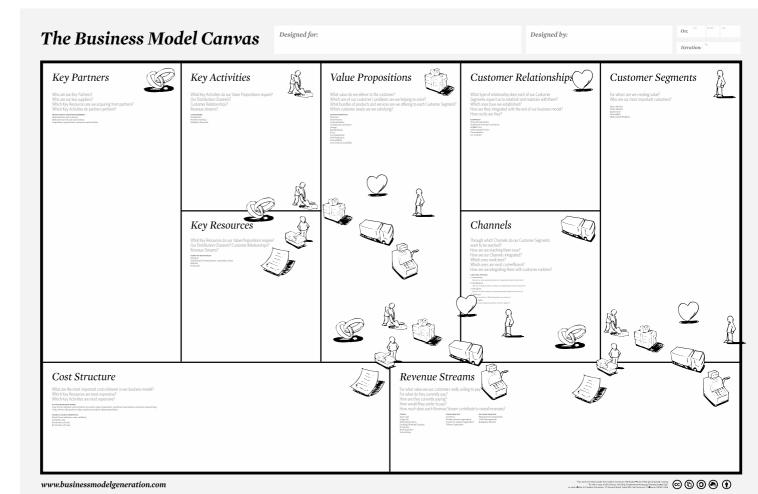

Software as a Business, © Prof. Uwe Aßmann

Web-Based Development of Business Model Canvas with LINC (Component "Fridolean")

- CC-BY-SA: http://www.businessmodelgeneration.com/downloads/business_model_canvas_poster.pdf
- From book "Business Model Generation" [Osterwalder/Pigneur]
 - Developing new or capturing existing business models
 - Different aspects of business model generation
- Fridolean: Online Canvas Editor, developed at TU-Dresden
 - Nested canvases
 - Life editing while chatting with Rocket Chat

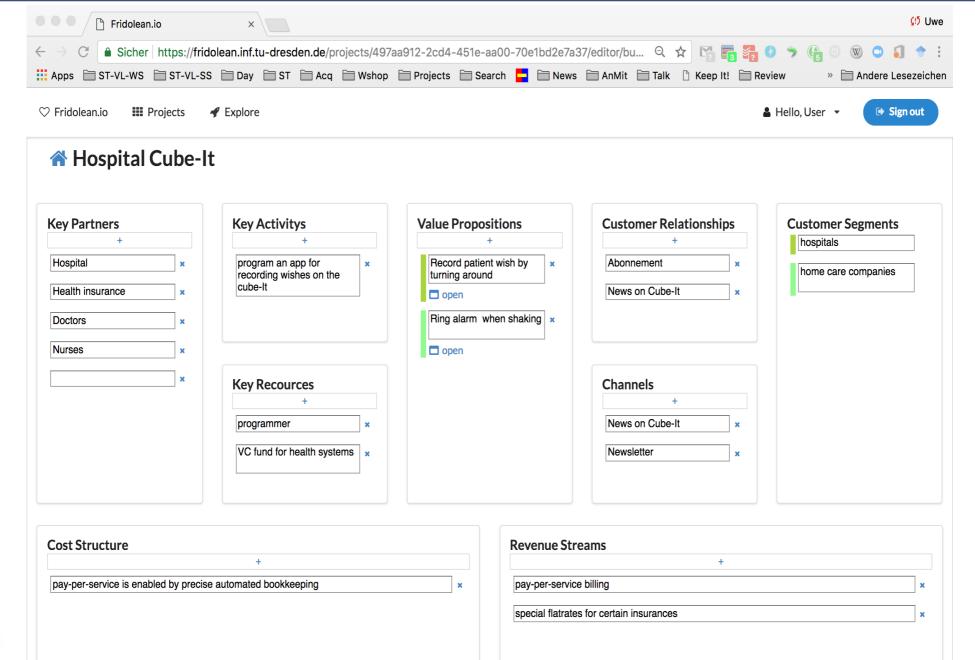

10

Software as a Business

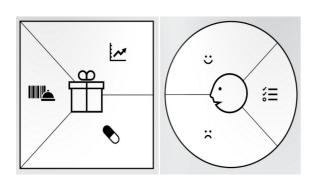

Software as a Business, © Prof. Uwe Aßmann

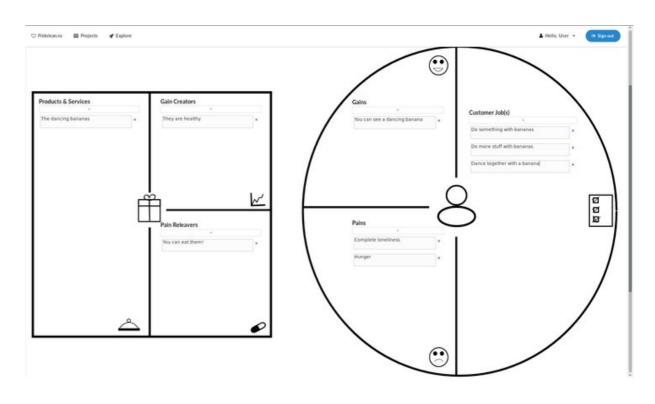

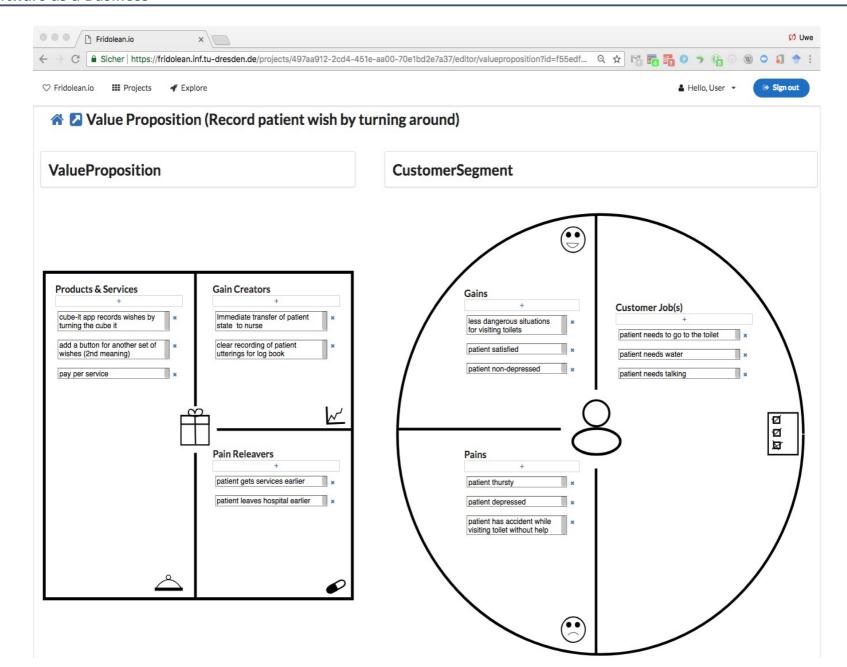

Example: Web-Based Validation of Business Model Canvas with LINC (Component "Fridolean")

- Value Proposition Canvas
 - Finding Pains and Gains

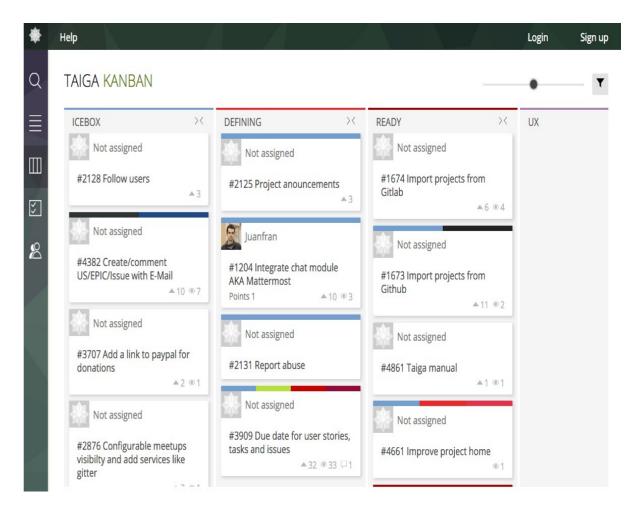

Task Management (Iterations) with LINC Component "Taiga Kanban Board"

- Taiga Task Management: Similar to
 - Wekan, Jira, Trello, Eteo-Board
- User identity management with KeyCloak (OSS)

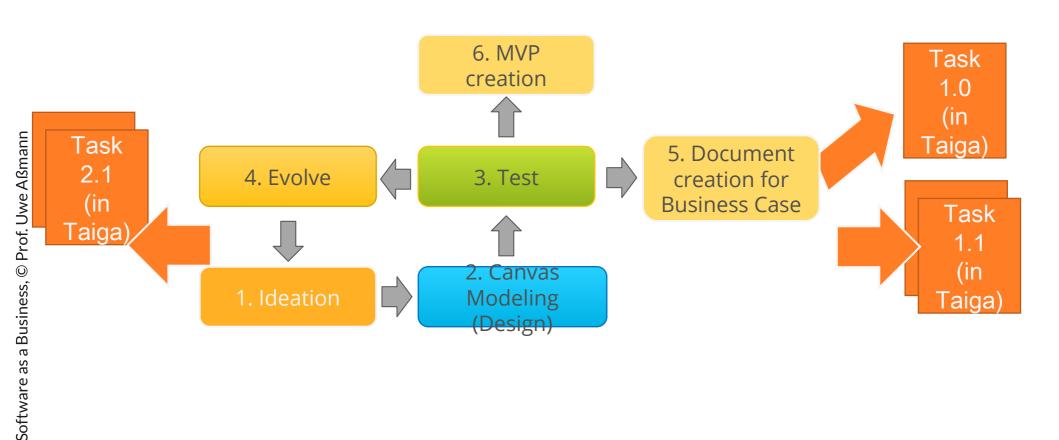

CLIP Hypothesis Testing for Lean Product Development

14 Software as a Business

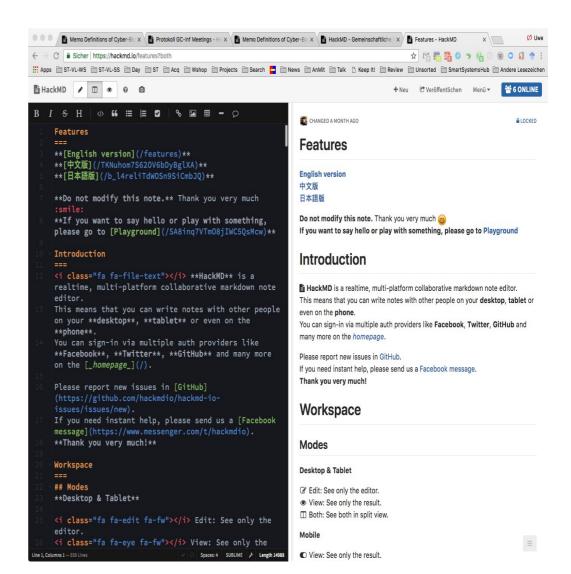

14

Document Creation for Business Cases with LINC Component "CodiMD"

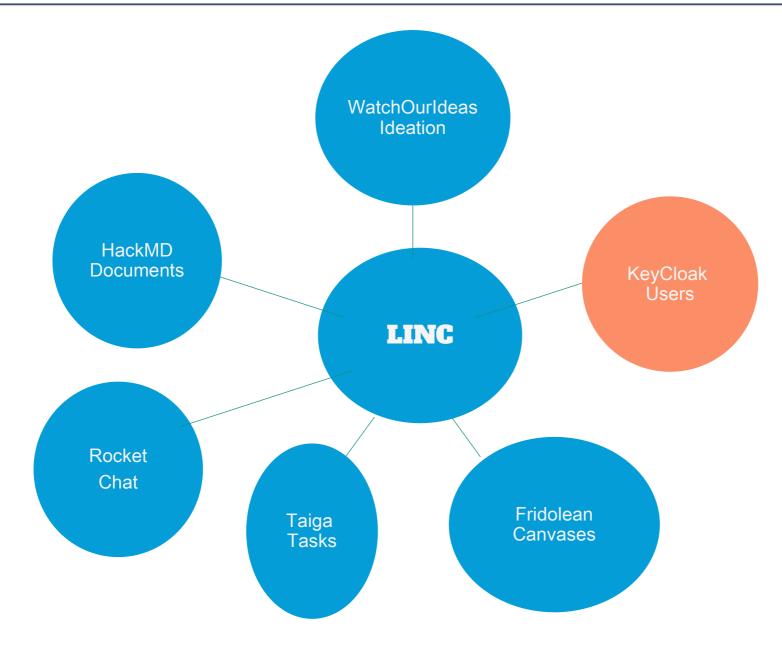

- Like Google docs, but private to an idea room or idea board
- Collaborative editing of
 - Idea cases
 - Business Case documents
 - Internal documents
- User identity management with KeyCloak (OSS)

Software as a Business, © Prof. Uwe Aßmann

Single-Sign-On with User Federation Server Keycloak

1st IoSense Innovation Challenge

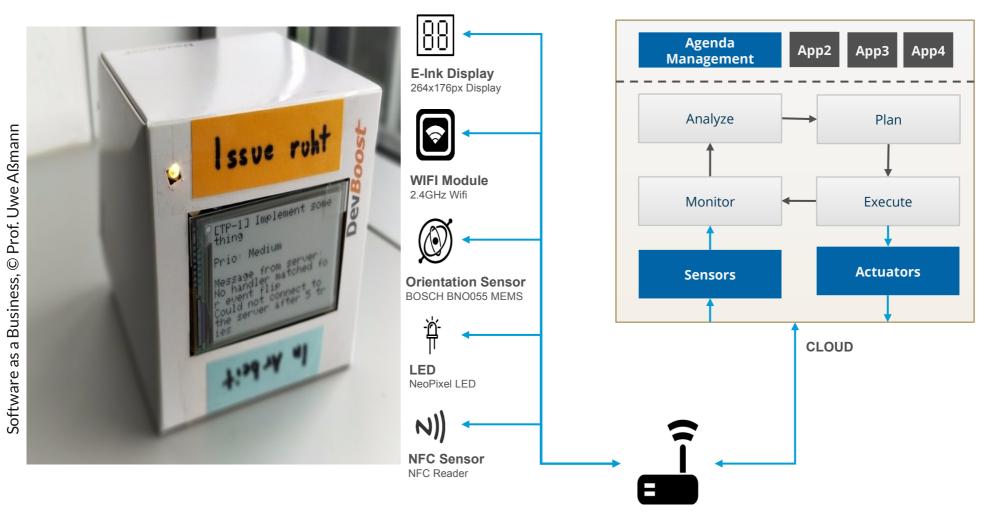

"Road Sign To Go" – Lisa Schönbach

https://woi.inf.tu-dresden.de/ideadetail/cube-its---issue-tracking

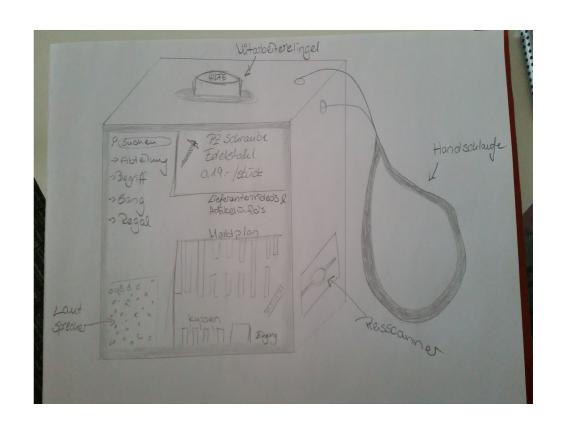

Results: Top List of Ideas

- Road Sign Cube-It ToGo
- Restaurant Cube-It
- Mood Cube-It
- Cube-It for Robot Control

Navigation Cube-It [Lisa Schönbach]

- https://woi.inf.tu-dresden.de/ideadetail/wegweiser-togo
- Use Cube-It as Road Sign in a supermarket
- Navigation of Customers
- Information on Products

Restaurant Cube-It [Ronny Seiger]

- https://woi.inf.tu-dresden.de/ideadetail/cube-its-in-a-restaurant
- "Cube-Its can be used as personal devices for guests in restaurants/bars:
 - as a personal tab;
 - to signal the waiter when ready to order or to pay;
 - to see updates regarding meal preparation;
 - to see the current amount due;
 - and also to inform waiters about new guests or guests switching tables."

Mood Cube-It [Mandy Korzetz]

- https://woi.inf.tu-dresden.de/ideadetail/moodcube-its
- "MoodCube-Its store personal preferences for home configurations;
- lighting, music and heating are adjusted depending on the current mood –
- set by the MoodCube-It's orientation."

Cube-It for Robot Control

- Utilizing a Cube-It to control a robotic arm
 - Gyroscopic sensor translates into movement
 - Integrated into the IoSense Sensor Tool-Kit (STK)
