6th International Fujaba Days

New Applications of Model-Driven Development

Technische Universität Dresden, Germany
September 18-19, 2008

Dates:

Submission deadline:	August 17th, 2008
Author notification:	September 1st, 2008
Camera ready copy:	September 11th, 2008
Fujaba Days 2008:	September 18th/19th, 2008

Program Committee:

- Uwe Aßmann
(Technische Universität Dresden,
Germany)
- Jürgen Börstler
(University of Umea, Sweden)
- Gregor Engels
(University of Paderborn, Germany)
- Holger Giese
(Hasso-Plattner-Institut Potsdam,
Germany)
- Pieter van Gorp
(University of Antwerp, Belgium)
- Jens Jahnke
(University of Victoria, Canada)
- Mark Minas
(University of the Federal Armed
Forces, Germany)
- Manfred Nagl
(RWTH Aachen, Germany)
- Arend Rensink
(University of Twente, Netherlands)
- Andy Schürr
(TU Darmstadt, Germany)
- Wilhelm Schäfer
(University of Paderborn, Germany)
- Gerd Wagner
(University of Cottbus, Germany)
- Bernhard Westfechtel
(University of Bayreuth, Germany)
- Albert Zündorf
(University of Kassel, Germany)

Fujaba is an Open Source UML CASE tool project started at the software engineering group of Paderborn University in 1997. In 2002 Fujaba has been redesigned and became the Fujaba Tool Suite with a plug-in architecture allowing developers to add functionality easily while retaining full control over their contributions.

The 6th International Fujaba Days aim at bringing together Fujaba developers and Fujaba users from all over the world to present their ideas and projects and to discuss them with each other and with the Fujaba core development team.
